

Dear Connecticut Conference of Municipalities,

We are a new organization that opened in March 2024 to address the issues of disconnected youth and adults, suicide, bullying, and other issues that both youth and adults struggle with that don't allow them to live a happy and fulfilling life. This organization was created by people who have experienced difficult times themselves and we are able to empathize with the population, but we do not only serve people who are struggling with these issues, we also helped others who do need other kind of support. We all have times were we need support. Thank you very much for gathering with us.

With kindness and love,

Our Loving Home Inc
